

Everybunny Dance!

Author: Ellie Sandall

Illustrator: Ellie Sandall

Book Guide

For Children Birth to Age 3

Questions

- It's fun to dance. How do you like to dance?
- Do you think bunnies really dance? How would they dance if they could?
- Who else do you think can dance?

Activities

Instrument Making!

Make instruments from things you find around your house. Have a Bunny Band Dance Party while you make music with your instruments. (Try pots and pans, toilet paper "horns," waxed paper on a comb that you can hum through, or rubber bands stretched on a small shoebox to make a guitar.)

Animal Dance!

Make your dance party "wild" by moving like different animals. You could hold up pictures from a book with animals in it and have your child guess how that animal would dance. How would a snake dance? How about a hippo? What about a dinosaur?
